

VITAL QUESTIONS TO ASK OURSELVES, BUSINESSES AND ALL LEVELS OF GOVERNMENT...

- Does the action create more life, or reduce it?
- Does it heal the future, or steal the future?
- Does it enhance human well-being or diminish it?
- Does it prevent disease or profit from it?
- Does it create livelihoods or eliminate them?
- Does it restore land or degrade it?
- Does it increase global warming or decrease it?
- Does it reduce poverty or expand it?
- Does it serve human needs or manufacture human wants?
- Does it provide workers with dignity or demean them?
- Does it promote fundamental human rights or deny them? **
